February 2023

Dear Passport Customer,

When you renew your Passport Update Program (PUP), you will also be entitled to **PBS v.12.08** now available! This version is jam packed with new enhancements. Here are just a few highlights:

➢ User defined printer selections that enable each user to choose the specific printers they need to access to print reports and forms.
➢ Fully integrated document management (eDocs) for PBS SQL Accounts Payable and Accounts Receivable. PBS eDocs is available for PBS SQL and Cashpoint customers only. Eliminates/reduces paper files/ vendor invoices, PO's, etc.! Additional modules to follow.

The Passport team is constantly striving to improve the products we offer by creating updates and enhancements to improve your efficiency and profitability. By staying current on PUP, here are a few of the many benefits you will receive:

✓ The many new features and functions of PBS that help you run your business smarter and better.
✓ Application of the latest fixes helps keep support requirements (and costs) down.
✓ Compliance with the latest state and federal tax and reporting changes
✓ Access to Passport's Training Library which is an ever-growing resource that you and your staff may access anytime, night or day.

We encourage you to maintain your Passport Update Program and safeguard your PBS™ software investment. **Renew today.** Please contact your Passport Partner for more details.

We thank you for your business.
The PSI Team

Passport's mission has always been to help our customers grow and improve efficiency and profitability by providing innovative software enhancements.
