Reviews

From our customers:

"Passport is a real accounting program with good audit trails. They have excellent customer service and are always willing to assist with any issue we might be having. Additionally, in the context of Passport's overall cost compared to other programs they are very cost competitive."

"We looked long and hard before going with Passport and I am very happy with our choice.

The transition and training were handled professionally and made as easy as possible. One of my favorites is the manufacturing side which is logical, easy to use…"

Sophisticated features at an affordable price.

About Passport Software, Inc.

Passport is committed to providing our clients with effective business software solutions and services.

Founded in 1983, Passport Software, Inc. is a leading provider of accounting and business software for small to medium sized businesses. Many of our several thousand customers have been with us since those early days.

Robust professional level accounting software is the foundation of the Passport Business Solutions™ product line. In addition, we have a comprehensive payroll module, with optional ACA compliance management choices.

Our manufacturing and distribution software products provide the components to build a fully integrated ERP and supply chain solution. Our NCR® Counterpoint interface provides a complete back office accounting solution for specialty retailers.
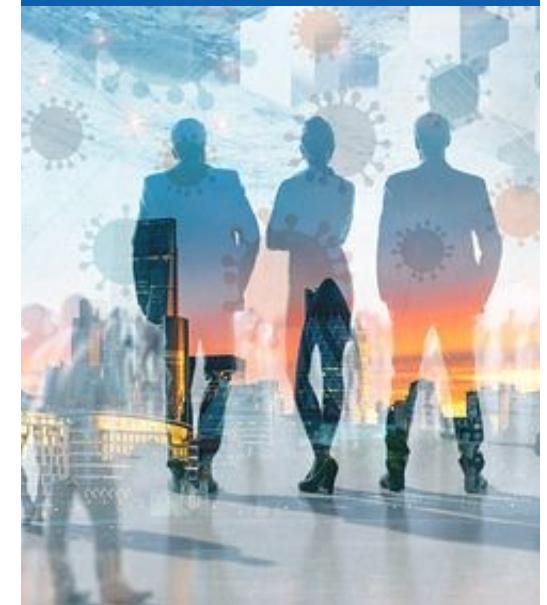

We offer superior US-based support services, product training, analysis, process improvement, software customization services, including analysis and design, and other specialized services.

Passport Business Solutions

Accounting Software

Accounts Payable
Provides tight control over vendor, supplier and standard costs by tracking payment due dates, available discounts, and money owed to creditors.

Accounts Receivable
Tracks money owed by customers. Identifies delinquent bills and helps improve cash flow. Creates standard bills and detailed invoices with unlimited notes to communicate products delivered and services rendered in detail.

General Ledger
Categorizes and summarizes accounting data. Provides comprehensive information for financial analysis and control. Custom-designed financial statements show profit or loss, assets, liabilities and equity.

Check Reconciliation
Maintains checkbooks, tracks deposits and reconciles checking accounts. Provides instant access to account information and eliminates manual reconciliation procedures.

Payroll
Flexible settings accommodate a variety of payroll needs and provide compliance with federal, state and local taxation. PBS™ Payroll maintains employee data, calculates taxes, handles deductions and prints payroll checks which eliminates the process of manually preparing tax information.

ACA Software and Services
Our IRS-certified ACA Software helps you comply with ACA mandatory reporting throughout the entire year and provides automated 1094/1095 filing.
Prefer to out-source your ACA compliance? We provide quick and easy Full Service ACA Management for businesses year-round.

CashPoint Accounting for NCR Counterpoint
CashPoint is a powerful back office accounting solution that offers the tightest integration available for NCR Counterpoint users.
CashPoint is easy to use and offers automated data integration, as well as an optional payroll module to manage payroll in house.

Distribution

Inventory Control
Tracks inventory to maintain optimum levels. Generates complete information on inventory valuation, quantities on hand and committed, and the flow of items sold.

Order Entry
Order Entry processes customer orders quickly and accurately. Includes inventory verification when entering orders, immediate customer information, and discount levels calculated. Tracks and processes serial numbers, lot control and multi-warehouse, multi-stocking unit features.

Purchase Order
Helps manage the status of all goods and services ordered from vendors. Individual as well as blanket purchase orders.

Sales Analysis
Helps you identify your best customers, best selling items and services, productive sales reps, and strong sales regions.

Point of Sale
Point of Sale provides functionality for a mix of retail/wholesale and mail order/catalog sales. Single screen transaction entry makes Point of Sale easy to learn and use.

Our goal is to empower your company with effective technology and business insight so you can focus on profitability and developing your business.

Manufacturing

Whether you make-to-order, make-to-stock or run a job shop, you will find tools that can help you streamline your operations and achieve an increase in overall efficiency and profitability.

The modular design and configurable options provide the tools needed to tailor a system that will allow you to reduce inventory, streamline production, improve on-time deliveries, manage product costs, develop a higher level of customer service, generate HTML or PDF reports, invoices, quotes and purchase orders and much more.

PBS Manufacturing consists of the following eight manufacturing modules:

- Inventory Management
- Product Definition
- Customer Order Processing
- Product Purchasing
- Master Scheduling and MRP
- Capacity Planning
- Shop Floor Control
- Manufacturing Job Costing

PBS Manufacturing integrates with the Passport Business Solutions accounting modules creating a complete business management solution.
