

PBS Demo System Installation

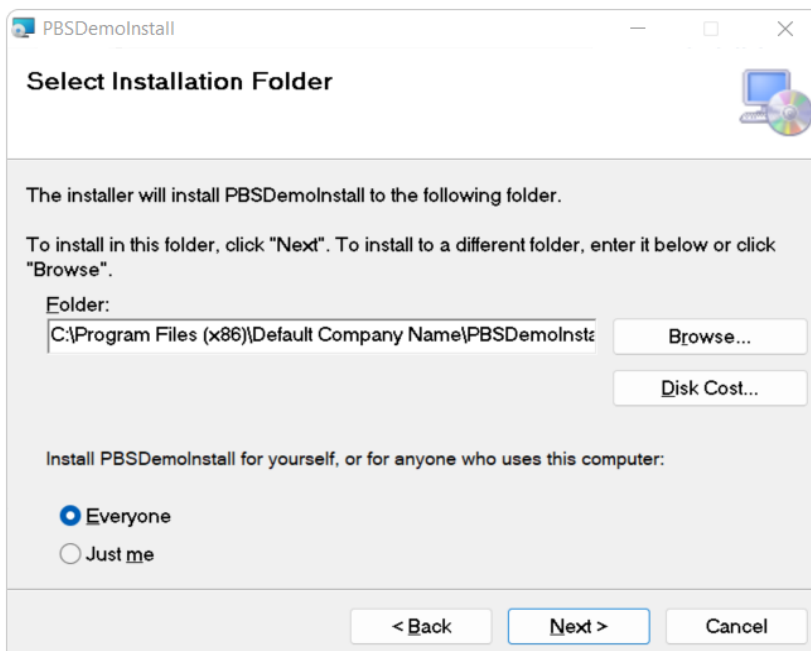

This is a small-footprint client installation, with a pre-configured connection to a server with the demo data and up-to-date programs. It is fully functional, with the exception of some features like our PBS eDocs™, which require additional files and access to a configured scanner device.

Installation

1. From the [Passport Training](#) site, download the **PBS™ demo** zip file, then double click it to extract the installer.
2. Run the **PBSDemoInstall.msi** installer. A Setup Wizard screen will appear. Click **Next**.

3. The Setup Wizard will provide a default install location, but you may select an alternate. It will also ask if you wish to install the PBS Demo for everyone (if it is a shared computer), or just you. Click **Next**.

4. You will be asked if you wish to continue the install. Click “Yes” to confirm the installation, and **Close** to exit once finished. Your new PBS desktop shortcut will look like this:

Launching PBS

5. Double-click the **PBS Demo** shortcut icon on your desktop to launch the software.
6. The PBS Login screen will prompt you for credentials:
- Company no = **00** (*For a PBS Manufacturing demo, please see below)
 - User ID = **PBS**
 - Password = **DemoUser** (this is case-sensitive)

The screenshot shows the 'Passport Business Solutions' login window. The title bar reads 'Passport Business Solutions'. The main area is divided into two sections. The left section, titled 'Company Information', contains three input fields: 'Company no' with the value '00', 'User ID' with the value 'PBS', and 'Password' with a masked value '*****'. To the right of the 'Company no' field is a small icon of three people and the text 'Passport Software, Inc.'. Below the input fields are three buttons: 'Login', 'Reset password', and 'Exit'. Below these buttons is the text 'Entry is case sensitive.' and three more buttons: 'Version control', 'Forms ordering info', and 'About PBS'. The right section of the window features a large graphic with the text 'Passport Business Solutions™' in blue and 'PBS SQL' in white on a yellow and blue background.
